<b>Result</b>			€ 16.445,73-

**Clarification**

End 2016 the board of Stichting Greenlandscape applied for the ANBI-status (tax status for charitable organizations). The Dutch Tax Authorities (DTA) required more information to decide on the application. On 28 November 2017 the Stichting was eventually granted the ANBI-status with retroactive effect from 3 June 2016. Furthermore, the Stichting had various exploratory meetings with potential donors in the course of 2017. As a result, the Stichting has not generated any income in 2017. The costs of € 16,445.73 are advisory costs for correspondence with the DTA.

**Prognosis**

Stichting Greenlandscape is optimistic about the future. The board expects the Stichting to receive the first funds for starting up its activities in 2018. These funds will be utilized to fulfill the main objective of the Stichting.
